

GROW IN MOLDOVA

AN INVITATION TO INVEST IN CĂLĂRAȘI CITY

2022

Dear investors from the Republic of Moldova and abroad,

Whether you are looking to initiate a new investment project in Moldova or aiming to optimize your operational costs, the city of Călărași is one of your best options to pursue.

In the city of Călărași, your business will gain substantial competitive advantages due to the following factors:

- ✓ The city of Călărași is strategically located on of the international economic corridor Iași (Romania) – Chișinău – Odessa (European road E58), 50 km away from the capital city of Chișinău and 60 km from the border with Romania/EU.
- ✓ Since 2018, in the suburb of Tuzara, is functioning a Free Economic sub-Zone (32 hectares of greenfield), designated to attract export-oriented investment projects. The FEZ sub-zone is managed by the administration of ‘Ungheni Business’ Free Economic Zone, which has a substantial previous experience in facilitating new investment projects.
- ✓ In the district of Călărași there is a significant available labor force. According to the most modest estimates, at the beginning of 2021 there were at least 13 thousand people of working age, who are not engaged in formal economic activities but are motivated to work. About 8 thousand of them are between 17 and 45 years old and can be easily trained as low- and middle- skilled industrial employees.
- ✓ The city of Călărași is owning significant greenfield and brownfield land reserves as well as unused buildings, that could be offered for new investment projects, under privileged conditions.

We are waiting for you in the city of Călărași!

We guarantee that you will be served above even your most optimistic expectations.

Ion Olari
Mayor of Călărași City

Călărași City

Călărași is a city in the central part of the Republic of Moldova, located on one of the main economic corridors of the country (European road E58) Chisinau – Ungheni – the border with Romania / European Union.

From a regional point of view, the city of Călărași is the center of economic gravity of an agglomeration composed of 44 localities (grouped in 28 municipalities) located at a distance of maximum 20 minutes driving accessibility, with a total population of about 60 thousand inhabitants. At the same time, in the radius of 30 km from Călărași city live over 150,000 inhabitants.

The city is located at a distance of 55 km away from the capital city of Chisinau and 70 km away from Chisinau International Airport. Giurgiulesti International Port is located at a distance of 245 km.

The city is crossed by the Chisinau – Ungheni – Iasi railway line, with access to both the European Union and the eastern markets.

The nearest border crossing point with Romania and the European Union is at a distance of 64 km (Sculeni), and the nearest international border crossing point with Ukraine – at a distance of 195 km (Otaci – Moghilău).

Based on the most modest estimations, in Călărași district there are currently over 13 thousand people of working age, motivated to work, but not involved in formal economic activities. About 8 thousand of them are between 17 and 45 years old, which could be relatively easily converted into low- and middle-skilled technical workers.

The city of Călărași has a developed local utility infrastructure, being covered in proportion of over 90% with centralized water supply and, over 60% with sewerage services and over 90% with centralized natural gas supply network. The local waste management service covers the entire locality.

In the city of Călărași is functioning a vocational school with a mechanical and food specializations. Furthermore, in the 40 minutes driving accessibility (Chisinau Municipality) are concentrated over 80% of the full potential of the higher and vocational technical education institutions of the Republic of Moldova (20 universities, 9 centers of excellence, 12 colleges and 10 technical vocational schools, with over 50 thousand students)

Available Workforce

Despite a continuous migration out-flow characteristic to the Republic of Moldova, there is still a significant reserve of available workforce in Călărași district.

Based on the most modest estimations, in Călărași district there are currently over 13 thousand people of working age, motivated to work, but not involved in formal economic activities. About 8 thousand of them are between 17 and 45 years old, which could be relatively easily converted into low- and middle- skilled technical workers.

Estimation of the labor force availability in Călărași district (2021)

Indicators	Estimations	Comments
Total population in Călărași district	≈ 56,000 people	According to the official statistics ≈69,000 inhabitants. However, according to the estimates, approximately 20% of them are currently residing permanently or temporarily abroad.
Number of working-age people currently living de facto in the agglomeration (exclusive of circular emigrants)	≈ 34,000 people	≈ 60% of the total present population
Including: Number of people aged 17-45, living de facto in the agglomeration (without emigrants)	≈ 22,000 people	≈39% of the total present population
Number of people officially employed	≈ 7,500 people	Employees from public and private sector, inclusively formally self-employed
Number of working-age inhabitants living de facto in Călărași agglomeration (excluding emigrants) but not participating in any form in formal economic activities	>25,000 people	Including residents currently engaged in informal economic activities (seasonal and occasional), without social and medical guarantees, with an average remuneration of 250-300 MDL / day (€ 12-15)
The existing minimum (estimated) labor reserve pool that de facto lives in Călărași agglomeration, which is not yet involved in migration, has adequate work discipline and is motivated to work in a stable job	≈ 13,000 people, inclusively ≈8,000 in age of 17-45	

At the same time, within a radius of 30 km from the city of Călărași, over 135 thousand people are residing de-facto (excluding emigrants), including over 95 thousand of working age, of which about 60 thousand aged 17-45.

The labor cost in Călărași district is among the lowest in the Republic of Moldova. In 2021, the average monthly salary was 6,000 thousand MDL (€300) or about 80% compared to the national average. Moreover,

in the private sector, the monthly cost of unskilled and low-skilled labor is about 3 thousand MDL (<€150) for full-time positions and about 200-250 MDL/day (€10-12) for seasonal and occasional positions.

Currently, in Călărași district is still available a reliable pool of skilled work force with industrial experience, mostly in the following major branches:

- Fruit and vegetable processing
- Cereal processing
- Alcoholic drink production
- Milk processing
- Canning industry
- Light industry (garments, shoes)
- PVC pipe production
